

## Occupational Therapy Table

Base Price \$1795

The Occupational Therapy Table is an electric, variable height therapy table with a pedestal base for easy movement around the perimeter. Tops are made to order with custom sizes and shapes according to the special needs of the therapist. Special features include a hand-held height adjustment switch which can be controlled from any side of the table, and an all-steel welded base for strength and stability.

## STANDARD FEATURES

- Fully Electric
- Adjustable Height Range from 24" to 36"
- Hand Held Height Adjustment Switch usable from any side of the table
- Tops made to order in many sizes.
