

## Hill HA90E

**Base Price \$2530**

The Hill Adjustable HA90E is an all purpose exam table. It is particularly suited for the varied requirements of the osteopathic physician whose procedures range from manipulation to OB/GYN. With the help of a gas-powered spring, the HA90E smoothly converts from a seated examination chair to a flat-top table with the touch of a lever. The back locks at any angle from 0° to 80°. For minor surgical procedures or greater ease in positioning patients, the HA90E can be purchased with an electric lift-back.

## Standard Features

- Electric adjustable height - 22" to 35"
- Gas-powered lift back with control lever
- Stirrups
- Fold-down foot section
- Standard width - 26"
- Length - 73"
- Foam top - 3"
- Choice of 20 vinyl colors for the top
- Beige or gray acrylic thermo-plastic base
