

**Hill 90MD**

**Base Price \$2945**

The deluxe Adjustable exam model, 90MD, has a host of specifically designed features for the physician in addition to the advantages of the 22" to 35" variable height.

Powered by an electric foot pedal, the lift-back section smoothly converts from a full-recline to chair-examination position. Like the HA90E, the 90MD is equipped with fully adjustable, retractable foot stirrups and 2 1/2" of ultra-cell foam.

The 90MD has a pull-out, stainless steel tray that slides neatly under the seat when not in use. The tray is removable for easy cleaning. The foot section manually adjusts to any angle for efficient and comfortable positioning. Shorter legs on the base permit easy movement around the table.

Shown with options 61, 63, 76 and exam stool
