## Hill Air-Flex

.....Base Price

**\$4195**

The Air-Flex is an electric adjustable-height treatment table designed to make flexion-distraction easier than ever before. Its truly unique design offers a height range from 21" to 29" (or 22 1/2" to 30") with air-powered flexion and distraction. Air-thoracic breakaway and pneumatic drops are optional. The air features on the table are supplied by a self-contained pneumatic system. Both the air-compressor and the electric elevation systems are safely enclosed within the telescoping base.

### How does the Air-Flex work?

A small internal air-compressor runs quietly and only periodically to replenish the large air-storage tank. Compressed air is then channeled from the tank to air-powered components chosen with the selector switch. You can position the selector switch to flexion, distraction, thoracic air-breakaway or drops. The level of air-pressure is controlled with the foot pedal. When flexing a patient, the selector switch is positioned to "FLEX". You can increase or decrease the pressure in the flexion pneumatic cylinder to perfectly counterbalance the patient's weight. With the patient now floating on a pillow of air, virtually no effort is required to apply flexion. Controlling the distraction and air-thoracic breakaway is also as simple as touching the foot pedal. The Air-Flex is equipped with three gear-locks for securing the flexion, rotation and lateral motion.

- Includes tilting headpiece and thoracic release
- Air distraction and flexion.
- Rotation, lateral motion, and locking mechanisms
- Slide-out ankle support
- Height controlled by electric foot pedal  
Standard range from 21 1/2" to 30"  
Height from 21 1/2" to 29" upon request at no additional cost  
Higher starting heights also available
- Standard 24" width
- [Choice of 20 vinyl colors](#) for the top
- [Beige or gray acrylic](#) thermo-plastic base

*New Option!*  
**AIR-FLEX**  
*with AUTO-FLEX*

Introducing the Air-Flex with Auto-Flex. The Auto-Flex feature adds even greater versatility to the Hill Air-Flex. Now you can treat your patients manually, or easily switch to Auto-Flex, for motorized flexion. With Auto-Flex, you can adjust the speed, the depth and the number of cycles. Auto-Flex is the latest addition to the list of many Air-Flex options. Its addition does not sacrifice any of the features found on the manual Air-Flex model.

- One-year warranty on all parts. (See dealer on-site labor warranty)

**Options for Standard Air-Flex**

<b>F10</b> Air-activated thoracic breakaway	\$255.00
<b>F11</b> Air-activated thoracic drop with release*	\$600.00
<b>F12</b> Air-activated lumbar drop*	\$600.00
<b>F13</b> Air-activated pelvic drop*	\$600.00
<b>F14</b> Manual straight and forward drop headpiece	\$300.00
<b>F15</b> Elevation headpiece raises 5" with tilting feature only	\$245.00
<b>F16</b> Elevation headpiece, raises 5", with manual straight and forward drop	\$545.00
<b>F17</b> Air-activated cervical drop*	\$600.00
<b>F18</b> Width of 27"	\$50.00

---

<b>F20</b> Auto-Flex motorized and manual flexion	\$2000.00
---	-----------

\* With the Thoracic Air Breakaway option, 1 air-drop is \$600.00.  
 With the Thoracic Air Breakaway option, 2 air-drops are \$662.50 each.  
 Without the Thoracic Air Breakaway option, 2 air-drops are \$600.00 each.  
 Without the Thoracic Air Breakaway option, 3 air-drops or more are \$662.50 each.

**Foot Pedal options available for all Air-Flex models**

Each table is equipped with two foot pedals on 6'6" cords. A pedal at the head end controls the height of the table; the other, at the foot end, controls the air pressure for the drops. The following foot pedals may be added to or substituted for the standard pedals.

<b>92</b> Extra Foot pedal on 6'6" cord, for height or air pressure	\$80.00
<b>92C</b> Rocker pedals in place of height pedal on cord, mounted each side of base	\$20.00
<b>92D</b> Toggle Switch, hand operated height control, mounted under table top	\$62.00
<b>92E</b> Power foot strips, 30" long, for cocking air drops, on each side of table	\$250.00

**Hill Deluxe Air-Flex**

.....**Base Price \$7100**

For even greater convenience, the Deluxe Model Air-Flex is equipped with all pneumatic drops and the Hill Air-Drop System. With the Air-Drop System you can choose from one or up to four drops simultaneously by pressing the appropriate buttons on the control panel. The drops are activated with a touch of the foot pedal and, after the adjustment, instantly reset with another tap to the pedal. This allows for multiple, repeated drops in seconds without removing your hands from the patient.

## Standard Features

- Includes all standard features  
([see above Options for Standard Air-Flex](#))
- Air-activated cervical, thoracic, lumbar, and pelvic drops
- Air-activated thoracic breakaway
- Combination air forward and straight drop headpiece
- One-year warranty on all parts and labor

## Options for Deluxe Air-Flex

**F18** Width of 27" \$50.00

**F20** Auto-Flex motorized and manual flexion \$2000.00
